## Report to Shareholders For the 3 Months Ended June 30<sup>th</sup> 2018

The Board of Directors of tTech Limited is pleased to submit the unaudited results for the quarter ended June 30th 2018.

#### Financial Performance

For the period tTech recorded revenues of \$75.4 million, an increase of 47.2% above the corresponding period in 2017 (\$51.2 million). Admin & Other expenses for the period were \$48.3 million, an increase of 17.6% over the same period in 2017 (\$41.1 million). The Cost of Sales for the period was \$22.2 million, up from \$4.7 million in the corresponding period in 2017. This was mainly due to additional subcontractors hired to execute the consulting contracts which have continued from Q1.

Net Profit (Total Comprehensive Income) for the period was \$9.7 million, an increase of 41.2% over 2017 (\$6.8 Million).

### Highlights

During the quarter the Company saw increased business in most of our major service categories including Infrastructure Management, IT Security Services, Voice/ PBX Systems, Cloud Services and Consulting with new contracts with new & existing customers.

tTech hosted a major marketing activity dubbed as TechCon 2018 during the quarter under review. The agenda included a presentation on the Data Protection Act which led to spirited discussions on Data Privacy and Data Security. Our IT Security business benefited as we help a number of organizations understand their Cybersecurity posture by performing vulnerability assessments and systems penetration testing. At this event tTech also officially launched and demonstrated the FileNexus Enterprise Document Management System which is capable of capturing information of any type and from any source, securely archiving it and allowing for business workflow automation, in one single application.

Our Consulting Team was very busy during this period visiting a number of clients and other organizations demonstrating the capability of the FileNexus application, all while they continue to deliver existing Portfolio and Project Management services and strategic IT planning services to new and existing clients.

With increased frequency of discussions around digitization and digital transformation, the tTech team took part in activities to provide guidance and direction to business executives.

We continue to have increased PBX business, however new customers have preferred to acquire these systems under a "hardware-as-a-service" model, where tTech provides and maintains the central switch under a predictable payment model contributing positively to our important monthly recurring revenue growth.

#### Summary

We have had a good second quarter and with the expanded and reenergized sales team leveraging the momentum built up in Q1 closing more of the opportunities. We anticipate continued growth and performance in second half of 2018.

On behalf of the board and management, I would like to thank our team of dedicated IT Professionals, and our valued customers who are becoming more like business partners by showing continued confidence in tTech and our services.

G. Christopher Reckord Chief Executive Officer
