

A Tribute to

Hugh O' Brian Allen

It is with deep sadness that the Board of Directors of tTech Limited and the entire tTech family announce the passing of our esteemed colleague and director, Hugh O'Brian Allen (Hugo), on Friday, April 26, 2024.

Hugh was a founding partner of tTech when the company commenced operations on December 1, 2006. He, along with other founding partners, Edward "Teddy" Alexander, Gregory Henry and Ayrton Salmon, laid the foundation for a company that has established itself as a leading Managed IT Services Provider in Jamaica.

From the company's inception to his untimely passing, Hugh was a stalwart within tTech. His passion for IT, and in particular networking, was unmatched. His knowledge was valuable, but just as important, or even more important, was the contribution he made to developing other members of his team.

Hugh shared his knowledge willingly and was always available to support others when they needed it.

Hugh was a man of few words, but when he spoke, his unique perspective always brought a fresh understanding. The Board will deeply feel the absence of Hugh's insights and his fellow Directors will miss his contributions to the Company.

Hugh's devotion to his family was unwavering and he leaves behind his wife, Margaret, and two sons, Chad and Dalano.

The tTech family extends their heartfelt condolences to the family, understanding the profound loss they are experiencing. We keep them in our thoughts and prayers during this very difficult time.

We are thankful for everything Hugh did for tTech, our team members, and our customers. He was a powerful force in the Company and demonstrated an unsurpassed level of commitment, a lesson for all to emulate.

*Rest in peace Hugh.
You lived a good life. We will miss you.*
-The tTech Family
